QUALITY PRODUCTS BUILT TO STAND THE TEST OF TIME.

THE FIRST RENALL solid timber door was crafted in our purpose built factory over 30 years ago. Since day one the company philosophy has remained the same: **use only the very best of renewable local and exotic timbers and employ accurate, flexible leading-edge woodworking technology to consistently construct a solid timber door that a master craftsman would be proud of.** With all essential elements milled from solid wood, to ensure **lifelong elegance and quality.**

We recognise that selecting a door design is a matter of personal choice, dependent on any number of factors. That's why, on the following pages you'll see some of our most popular designs... but it doesn't stop there. **With a Renall door you are limited only by your imagination.**

Our unique door manufacturing method means **we are able to accommodate most variations in timber, size and design.** If you select an existing Renall profile, changes to your door configuration or dimension can be achieved with little more than a few keystrokes. Now, in New Zealand, you can create an interior or exterior door exactly to your design and dimension requirements, without a penalty for cost and time.

Woodworking craftsmanship, flexible production methods and leading-edge technology combine to ensure yours is a custom built, solid timber door made to stand the test of time.

Renall Doors proudly use reliable and sustainable timber sources.

- Hand select colour matching + 50%.
- Doors over 2100mm in height are not suitable to be manufactured in Radiata, therefore will not have a warranty.

INTERIOR

- 38mm thick.
- Paint Quality doors are manufactured from Radiata.
- Paint Quality doors are manufactured with 18mm solid raised & fielded panels.
- All interior doors supplied with beading.

SHELTERED EXTERIOR

- 42mm thick.
- Paint Quality doors are manufactured from Tanalised Radiata.
- Only Stain Quality Sheltered Exterior doors are supplied with beading.

Standard size doors – 1980mm x 860mm. Side Lites 1980mm x 460mm. Prices cover up to these sizes.

Prices for non-standard door sizes – For any door over the standard sizes above, please use the following formulas as a guide for pricing:

Door over 1980mm in height – Standard price from brochure divided by 1980 then multiply it by (height required) equals retail price of door.

Door over 860mm in width – Standard price from brochure divided by 860 then multiply it by (width required) equals retail price of door.

If a door is both over-height and over-width, apply the height formula first, then use the price that is given as your list prices and continue with the width formula.
